ABILITIES

CORE: Deadly Demise D3, Firing Deck 11

Droneport: Each time this **FORTIFICATION** is selected to shoot, its drone defenders weapon will target and resolve attacks against every enemy unit that is an eligible target to this **FORTIFICATION**.

Fortification: While an enemy unit is only within Engagement Range of one or more **FORTIFICATIONS** from your army:

- That unit can still be selected as the target of ranged attacks, but each time such an attack is made, unless it is made with a Pistol, subtract 1 from the Hit roll.
- Models in that unit do not need to take Desperate Escape tests due to Falling Back while Battle-shocked, except for those that will move over enemy models when doing so.

Tidewall Cover: Each time a ranged attack is allocated to a model, if that model is not fully visible to every model in the attacking unit because of this **FORTIFICATION**, that model has the Benefit of Cover against that attack.

TIDEWALL DRONEPORT

Like a harbour amidst a raging storm, Tidewall Droneports house swarms of tactical drones and shield them from the enemy's fire. At a command from the droneport operators, these drones are unleashed to join the battle. Meanwhile, the droneports themselves are able to hover and relocate upon the shifting tides of war.
