

TYRANIDS

ARMY RULES

SYNAPSE

Some Tyranids serve as synaptic conduits or nodal relays through which a portion of the Hive Mind's iron will flows, overriding the natural instincts of the swarm to direct the teeming warrior-beasts to function as a single, gestalt organism on the battlefield.

If your Army Faction is **TYRANIDS**, while a **TYRANIDS** unit from your army is within 6" of one or more **SYNAPSE** models from your army, that unit is said to be within Synapse Range of your army. Each time a **TYRANIDS** unit from your army takes a Battle-shock test, if it is within Synapse Range of your army, take that test on 3D6 instead of 2D6.

SHADOW IN THE WARP

Tyranids flood the battlefield with the psychic signature of the hive fleet, an icy, alien dread that gnaws at the minds of their prey and smothers even the most stalwart courage. When faced with such unfathomable horror, many are driven insane or suffer catastrophic neural damage.

If your Army Faction is **TYRANIDS**, once per battle, in either player's Command phase, if one or more units from your army with this ability are on the battlefield, you can unleash the Shadow in the Warp. When you do, each enemy unit on the battlefield must take a Battle-shock test.

TYRANIDS – INVASION FLEET

DETACHMENT RULE

If your Army Faction is **TYRANIDS**, you can use this Invasion Fleet Detachment rule.

HYPER-ADAPTATIONS

Every warrior organism in the Tyranid race is fashioned by the ineffable alien will of the Hive Mind. Their flesh and chitin is endlessly mutable, honed into whatever form will prove most lethal to the prey.

At the start of the first battle round, select one of the following Hyper-adaptations to be active for **TYRANIDS** units from your army until the end of the battle:

SWARMING INSTINCTS

Each time a **TYRANIDS** model with this Hyper-adaptation makes an attack that targets an enemy **INFANTRY** or **SWARM** unit, that attack has the **[SUSTAINED HITS 1]** ability.

HYPER-AGGRESSION

Each time a **TYRANIDS** model with this Hyper-adaptation makes an attack that targets an enemy **MONSTER** or **VEHICLE** unit, that attack has the **[LETHAL HITS]** ability.

HIVE PREDATORS

Each time a **TYRANIDS** model with this Hyper-adaptation makes an attack that targets an enemy **CHARACTER** unit, if a Critical Hit is scored, that attack has the **[PRECISION]** ability.

TYRANIDS – INVASION FLEET

STRATAGEMS

If you are using the Invasion Fleet Detachment rule, you can use these Invasion Fleet Stratagems.

RAPID REGENERATION

INVASION FLEET – BATTLE TACTIC STRATAGEM

Prey stare in horror as chitinous armour regrows and flesh, muscle and sinew knots back together as though never harmed.

WHEN: Your opponent's Shooting phase or the Fight phase, just after an enemy unit has selected its targets.

TARGET: One **TYRANIDS** unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the end of the phase, models in your unit have the Feel No Pain 6+ ability. If your unit is within Synapse Range of your army, until the end of the phase, models in your unit have the Feel No Pain 5+ ability instead.

ADRENAL SURGE

INVASION FLEET – BATTLE TACTIC STRATAGEM

These warrior organisms destroy all as their adrenaline surges.

WHEN: Fight phase.

TARGET: Up to two **TYRANIDS** units from your army that are within Synapse Range of your army and are eligible to fight, or one other **TYRANIDS** unit from your army that is eligible to fight.

EFFECT: Until the end of the phase, each time a model in one of those selected units makes an attack, a successful unmodified Hit roll of 5+ scores a Critical Hit.

OVERRUN

INVASION FLEET – STRATEGIC PLOY STRATAGEM

Tyranids are an unstoppable avalanche of flesh and chitin.

WHEN: Fight phase, just before a **TYRANIDS** unit from your army Consolidates.

TARGET: That **TYRANIDS** unit.

EFFECT: Until the end of the phase, each time a model in your unit makes a Consolidation move, it can move up to 6" instead of up to 3", provided your unit can end its Consolidation move in Unit Coherency and within Engagement Range of one or more enemy units. If your unit is within Synapse Range of your army and not within Engagement Range of any enemy units, instead of making that Consolidation move, it can instead make a Normal move of up to 6".

DEATH FRENZY

INVASION FLEET – STRATEGIC PLOY STRATAGEM

Tyranids care nothing for self-preservation, lashing out even in death.

WHEN: Fight phase, just after an enemy unit has selected its targets.

TARGET: One **TYRANIDS** unit from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the end of the phase, each time a model in your unit is destroyed, if that model has not fought this phase, roll one D6: on a 4+, do not remove it from play. The destroyed model can fight after the attacking model's unit has finished making attacks, and is then removed from play.

TYRANIDS – INVASION FLEET

STRATAGEMS

If you are using the Invasion Fleet Detachment rule, you can use these Invasion Fleet Stratagems.

SYNAPTIC INSIGHT

INVASION FLEET – STRATEGIC PLOY STRATAGEM

Guided by the instincts of leader-beasts, a portion of the swarm can be tasked with focusing its hunting instincts to destroy a particular foe.

WHEN: Your Command phase.

TARGET: Up to two **TYRANIDS** units from your army that are within Synapse Range of your army, or one other **TYRANIDS** unit from your army.

EFFECT: Select one Hyper-adaptation. Until the end of the battle round, that hyper-adaptation is active for those selected units in addition to any other that may be active for your army.

RESTRICTIONS: You cannot select the same hyper-adaptation you selected at the start of the first battle round.

1CP

ENDLESS SWARM

INVASION FLEET – STRATEGIC PLOY STRATAGEM

As the battle rages, more organisms pour in to bolster the swarms.

WHEN: Your Command phase.

TARGET: Up to two **ENDLESS MULTITUDE** units from your army that are within Synapse Range of your army, or one other **ENDLESS MULTITUDE** unit from your army.

EFFECT: Up to D3+3 destroyed models are returned to each of the selected units.

1CP

TYRANIDS – INVASION FLEET

ENHANCEMENTS

If you are using the Invasion Fleet Detachment rule, you can use these Invasion Fleet Enhancements.

ALIEN CUNNING

This leader-beast possesses highly sophisticated neural pathways, allowing it to identify priority strategic assets and adapt the position of its warriors to seize them before the foe even recognise their value.

TYRANIDS model only. After both players have deployed their armies, select up to three **TYRANIDS** units from your army and redeploy them. When doing so, you can set those units up in Strategic Reserves if you wish, regardless of how many units are already in Strategic Reserves.

PERFECTLY ADAPTED

This creature was created for one purpose: to completely eradicate the defenders of the target prey world.

TYRANIDS model only. Once per turn, you can re-roll one Hit roll, one Wound roll, one Damage roll, one Advance roll, one Charge roll or one saving throw made for the bearer.

SYNAPTIC LINCHPIN

With a cerebral cortex that pulsates with the irresistible power of the Hive Mind, this leader acts as a blazing synaptic beacon to the lesser creatures of the swarm, the better to direct their actions and react to the ever-changing state of battle.

TYRANIDS model only. While a friendly **TYRANIDS** unit is within 9" of the bearer, that unit is within Synapse Range of your army.

ADAPTIVE BIOLOGY

The same weapon rarely works against this leader-beast twice, as its alien physiology adapts at an astonishing rate to counter the attacks of the foe.

TYRANIDS model only. The bearer has the Feel No Pain 5+ ability. At the start of any turn, if the bearer has fewer than its starting number of wounds remaining, until the end of the battle, it has the Feel No Pain 4+ ability instead.
